

The Confederation of British Metalforming in partnership with Croner have specifically designed this event especially for local business owners and directors to help them tackle the day-to-day challenges that employing people brings.

Croner have over 70 years' experience helping business owners who have had issues in these areas, and using this knowledge, they have put together an event to help you avoid the costly mistakes that others have made.

The Croner Business Support team will be on hand before and after the event to answer any questions you may have and talk to you about how we can potentially help your business. You will also have the opportunity to network with like-minded individuals over lunch.

Important Health and Safety Updates

30 January 2018 - PM Session
