

Invitation to CBM Fastener Sector Meeting

Date: **Monday 17th September 2018**

Time: **Arrival from 10:30 for meeting to commence 11:00**

Venue: **British Steel Conference Centre, Brigg Road,
Scunthorpe**

To include: **Full guided tour of Wire Rod Mill**

British Steel has kindly offered to host the next CBM Fastener Sector Meeting at its Conference Centre, alongside its steel works in Scunthorpe.

With all that is happening in relation to Brexit, wider steel tariffs, and the general trend in wire rod availability and costs in 2018, this is a timely and rare opportunity to learn more about the UK's wire rod producer, its facilities and capabilities, and plans for the future.

The provisional schedule for the day is:

10:30 Arrive British Steel Conference Centre – coffee and tea.

11:00 CBM Fastener Sector discussions

11:45 Presentation on British Steel and the Wire Rod Mill and its Processes

12:30 Light Lunch

13:30 Guided Tour of the Wire Rod Mill, including finished coil wrapping and storage facilities, and laboratory

15:00 Questions and Depart

It is quite difficult to find dates when British Steel has availability in the Conference Centre and relatively rare to be able to arrange a guided tour of the Rod Mill. As you will recognise, purely on health and safety grounds, providing the tour also requires a significant commitment in terms of people and time from British Steel.

For these reasons going ahead with the meeting does depend on the level of interest and commitment from CBM members. **Please, therefore, would you let Kirsi know (kirsi.lintula@thebcm.co.uk) by the end of July how many from your company would be able to attend.**

Further details and agenda will be circulated as soon, hopefully, as we are able to confirm the meeting is viable.

Andrew Nuttall
CBM Board Representative - Fasteners
