

Subcon, The Engineer Expo and Manufacturing Management Show

Dates: 14 – 16 September, 2021

Venue: The NEC, Birmingham

Website: <https://www.subconshow.co.uk/>

Subcon is the UK's premier subcontract manufacturing supply chain show. For over 40 years, the show has continued to deliver high quality content and a variety of UK and international exhibitors. This year, Subcon will be co-located with The Engineer Expo and new for 2021, the very popular Manufacturing Management Show. Join the manufacturing community from the 14-16 September at the NEC, as we reunite in person for the first time in two years!

The Manufacturing Management Show, will bring together a detailed conference agenda delivering sessions led by leading, big-name companies. The conference will allow attendees to gain expert insight and content from their manufacturing peers.

The Engineer Expo also provides UK engineering professionals with the latest in-house manufacturing and design solutions, alongside cutting-edge developments in advanced engineering technologies.

Visitors will gain free access to all three events, offering unparalleled opportunities for learning, networking and engagement.

Registration is now open! Confirm your free space here: <https://bit.ly/3qmX6qN>
