

WEBINAR – SHOP FLOOR DATA COLLECTION

April 11th, 2024

2:00 pm GMT

How To Get Complete Shop Floor Visibility Using Plug & Play Machine Monitoring

Manufacturers are increasingly turning to affordable digital technologies to identify and remove inefficient processes from the shop floor.

Join our upcoming webinar featuring Chris Iveson, CEO of FourJaw Manufacturing Analytics. Discover how their Plug & Play hardware connects to any machine, capturing real-time shop floor data to enhance processes, boost productivity, and slash energy waste.

Chris Iveson
Co-Founder & CEO

WHAT TO EXPECT

- **Practical advice to get started on a factory digitisation project**
- **Learn how Plug & Play technology provides an affordable way to capture shop floor data**
- **Find out about the top strategies to maximise tech impact**
- **Learn about real-life manufacturing use cases**
